

## ISSC Henley Risk Assessments

On this page you will find example risk assessments which show the kind of approach ISSC expects you to take.

The example risk assessment, are by no means conclusive and should be adapted for your Event needs.

If you can't find one that suits your activity, pick the one closest to it and adapt it for your own needs. Use it as a guide to think about:

- a. The hazards associated to your activity
- b. The steps you need to take to control the risks.

Even where the hazards are the same, the control measures you adopt may have to be different from those in the examples to meet the particular conditions in your activity.

### **Remember**

A risk assessment is only effective if you and your participants/spectators act on it. You must follow through with any actions required and review them on a regular basis.

## ISSC Generic Events (Non Sporting) Risk Assessment

<b>Assessments completed by.</b>
<b>Date.</b>
<b>Reviewed.</b>

A full risk assessment should be carried out for all events. In many circumstances this is a legal requirement.

It is the responsibility of the event organiser/coordinator(s) to carry out the Risk Assessment.

The following guidance should aid you in carrying out **your** risk assessments.

You are to record your findings below.

### **Event/Fixture Safety Risk assessment**

1. This risk assessment is designed to cover Events held at all of the ISSC Sites. (Rushmere, Notcutts, Westwood and Senior School)
2. Please note that this does not cover every eventuality. Your event may need to be individually Risk Assessed, by the EVENT Organiser. A copy is to be sent to ISSC.
3. The School Health, Safety and Welfare Policy can be used in support of this document
4. All in attendance are to be made aware of the safety procedures, in particular the action to take when the Fire Alarm sounds

### **Consequence of Hazard**

Minor injury  Injury  Over three-day absence  Major injury  Disability or Death

What are the hazards?	Who might be harmed and how?	Proposed Control Measures	What further action is necessary ?
Transport Parking etc	All in Attendance (and others) risk serious, possibly fatal, injuries if struck by a vehicle.	<ul style="list-style-type: none"> <li>All vehicles are to adhere to the Parking Signs, etc, ensuring that they do not block in other patrons and/or Exits.</li> <li>All staff (when) controlling traffic are to wear High visibility vests, e.g. night time</li> <li>Arrange times for staff vehicles to arrive when the Public are not on site.</li> <li>Prohibit all other vehicle movement, other than emergency services, when the public/pupils are on the site</li> </ul>	
Slips, Trips and Falls	All in Attendance (and others) risk serious injury if they slip or trip, even on the level.	<ul style="list-style-type: none"> <li>All areas are to be kept clear at all times.</li> <li>Steps, changes in level and other tripping hazards fenced off, if not in use.</li> <li>Lighting provided to walkways and general areas in use by the public after dark.</li> <li>Good “housekeeping” – staff ‘see it and sort it’.</li> </ul>	
Medical Emergency	All in Attendance (and others) could become seriously ill if no emergency first aid available.	<ul style="list-style-type: none"> <li>First aid for staff <b>MUST</b> be provided in accordance with School Policy and current Regulations.</li> <li>Consult on plans for medical emergency cover with MATRON.</li> </ul>	
Lost Children	Children and parents can become separated	<ul style="list-style-type: none"> <li>All staff made aware of the Lost Child procedure.</li> </ul>	
Electrical Danger	Staff and public may suffer serious and possibly fatal electric shock/burns injuries from faulty electrical equipment or installation.	<ul style="list-style-type: none"> <li>All electrical systems are to be constructed and maintained in a condition suitable for use and protected as necessary by 30mA residual current circuit breakers.</li> <li>A competent person should certify all electrical installation as to their safety on completion.</li> <li><b>All Portable electrical equipment PAT tested</b></li> </ul>	
FIRE	All in Attendance	<ul style="list-style-type: none"> <li>Ensure that there are no sources of ignition and fuel in proximity of buildings etc.</li> <li>Users are responsible for their own arrangements.</li> <li>Refuelling is to be carried out by a competent person.</li> </ul>	
Fire Safety	If trapped, staff and others risk serious, possibly fatal injuries from smoke inhalation or burns	<ul style="list-style-type: none"> <li>Fire risk assessment completed March 2016.</li> <li>Staff are to check fire exits and keep exits clear during the event.</li> <li><b>Those in attendance must be made aware of the emergency Assembly Area, and what to do in the event of a Fire</b></li> </ul>	
Food poisoning	Staff, Pupils and the public risk ill health if they eat food prepared in unhygienic conditions.	<ul style="list-style-type: none"> <li>Catering staff are to monitor throughout</li> <li>SOS, Medical and Allergen info to be held by Staff</li> </ul>	
Work at height	Staff (and others) risk serious, possibly fatal, injuries if they fall from height.	<ul style="list-style-type: none"> <li>All work at height assessed on an individual task basis.</li> </ul>	
Manual Handling	Workers may get musculoskeletal problems, eg back pain from handling heavy and/or awkward objects.	<ul style="list-style-type: none"> <li>All work involving manual handling assessed on an individual task basis.</li> <li>Aids to manual handling including a range of heavy duty sack barrow and trollies available for staff.</li> </ul>	
Condition of Playing Field(s)	Slips, Trips & Falls	<ul style="list-style-type: none"> <li>Inspection of the playing field(s) to ensure it is safe for the event to take place</li> </ul>	

		<ul style="list-style-type: none"> <li>• Access to qualified First Aider, First Aid kit and telephone</li> </ul>	
Balls, Players, clashing with Guests, Spectators and Posts etc.	Injury, Cuts, Collision with Equipment / People	<ul style="list-style-type: none"> <li>• All equipment must be approved</li> <li>• The safety of spectators must be planned into the event, with suitable (Physical) Barriers installed and checked before the event begins.</li> <li>• Signage, warning Spectators of any dangers should also be in place.</li> <li>• All equipment and positioning is to be checked before use.</li> </ul>	
Bar	Alcohol: members of the public becoming intoxicated leading to Violence	<ul style="list-style-type: none"> <li>• Bar supplied and operated by approved operator(s)</li> <li>• Bar Area must not exceed Maximum numbers as laid down by the H&amp;S Officer</li> </ul>	
Medical Emergency	All in Attendance (and others) could become seriously ill if no emergency first aid available.	<ul style="list-style-type: none"> <li>• First aid is to be provided in accordance with current Regulations.</li> <li>• Eg. First Aid point provided for the public with first aiders in accordance with Chapter 20 HSG 195 The Event Safety Guide – A guide to the health, safety and welfare at music and similar events (commonly known as The Purple Guide)</li> </ul>	Consult on plans for medical emergency cover with Ipswich School Matron.

## **SPECIAL EVENTS - EMERGENCY PLANNING GUIDE**

### 1. Introduction

Planning for the potential risks and hazards associated with a special event is difficult but essential to the event's success. An event is an activity within the school that brings together a large number of people. Emphasis should not be placed on the total number of people attending but rather the impact on the school's ability to respond to a large-scale emergency or disaster or the exceptional demands that the activity places on various support services.

This document highlights emergency issues that the "event organiser" should address in the early stages of planning or even when you are discussing promoting or sponsoring such an event.

You should consider:

- a. The scope of the event
- b. The risks to spectators and participant
- c. The support required (personnel and logistics).

### 2. Considerations

- a. Event Evacuation and Shelter Locations – Be sure to identify how to evacuate attendees and where to.
- b. Make sure staff are aware of these procedures and locations.

### 3. Event Cancellation or Postponement

An event may need to be cancelled, postponed, or interrupted. If a crowd has already gathered, these actions have the potential to create dangerous situations. The event Organiser should have a plan to inform and disperse any crowds.

### 4. Medical Personnel/First Aid

Have you considered having on site medical/first aid personnel, including ambulances for the event? You may need to consider notifying local ambulance providers and hospitals of the event, spectator profile and potential medical problems (ie: heat, alcohol, etc).

### 5. Maintain Access – Have you ensured the event has proper access for people to enter and exit the site including maintaining aisle-ways and keeping areas in front of the event and emergency exits clear?

### 6. Emergency Notification - Do you have a way to quickly communicate with the attendees to the event in case of an emergency, disruption or other problem? For example, portable loudhailer or other capabilities.

Planning Checklist:

- Police – Threat Assessment, Security, Crowd Control, Emergency Services, Escorts/VIPs
- Emergency Management – Emergency Planning, Weather, Evacuation
- Environmental Health and Safety – Fire/Venue Safety, Evacuation,
- Facilities – Space/Site Considerations, Utilities, Cleaning/Rubbish Removal, etc
- Event Building – Food, Tents, Chairs, Staging, Tables
- Parking and Transportation – Parking, Transportation/Shuttles, Traffic/Road Impacts
- Media Technology Services – Audio Visuals & Lighting
- Public Affairs – Press Releases & Media Coordination
- Government Affairs – Neighbourhood and Local Council Coordination

# Risk Assessment for Sports Coaching on ISSC Fives Courts

## MANAGEMENT OF HEALTH AND SAFETY AT WORK REGULATIONS 1999 GENERAL RISK ASSESSMENT

<b>DEPARTMENT/SCHOOL/UNIT</b>	<b>ISSC</b>	<b>REF NO.</b>	<b>ISSC/Fives</b>
<b>TASK/OPERATION BEING ASSESSED</b>	<b>Fives</b>		
<b>PURPOSE/METHOD OF WORK</b>			
<b>Consequence of Hazard</b>			
Minor injury <input type="checkbox"/> Injury <input checked="" type="checkbox"/> Over three-day absence <input type="checkbox"/> Major injury <input type="checkbox"/> Disability or Death <input type="checkbox"/>			
Maximum of 12 players/staff over 3 courts.			
<b>SPECIFIC LEGISLATIVE REQUIREMENTS</b>		<b>LEVEL OF SKILL/TRAINING REQUIRED</b>	
Health & Safety at Work etc. Act Management of Health & Safety at Work Regulations Workplace (Health, Safety & Welfare) Regulations Health and Safety (First Aid) Regulations		General awareness of hazards associated with this type of activity. First Aid Certificate. Knowledge of location of First Aid boxes needed. Manual Handling Training for Members of Staff	
<b>CHEMICALS/MATERIALS INVOLVED</b>	<b>HSC NO.</b>	<b>ASSESSMENT DATE</b>	
		<b>SPECIFIC WORK EQUIPMENT PROVIDED</b>	
		Sports Equipment Goggles & Gloves	
<b>MAIN HAZARDS IDENTIFIED</b>	<b>WHO WILL BE AFFECTED</b>	<b>CONTROL MEASURES TO REDUCE THE RISK</b>	
Fixed Buttress causing tripping and collision injuries.  Being Struck by the ball  Trips and falls  Running into other players	Players and Coaching Staff Spectators	<p>Players play Fives at their own risk, however, the ETON FIVES ASSOCIATION brings your attention to the following measures you should take to minimise risk to yourself and others whilst playing Fives:</p> <ol style="list-style-type: none"> <li>1. You should read and be acquainted with the Laws of the Game and follow safe practices when playing the game</li> <li>2. Fives is an energetic game and you should be well and healthy before you consider playing. In particular players should ensure they are free of potentially fatal diseases such as coronary heart disease</li> <li>3. Warm up muscles and hands before starting vigorous play so as to avoid strains and bruises. Warming down after play is recommended to provide additional protection and avoid muscle stiffness, however, in practice this is rarely done</li> <li>4. Standard sports equipment such as Fives gloves should be used to minimise risk of physical injury</li> <li>5. Wear appropriate shoes with a good level of grip (e.g. trainers) and ensure shoe laces are properly laced and tied so as to avoid slipping and tripping</li> </ol>	

		<p>6. Do not play if the floor is slippery or there is debris on the court. Be aware that slipperiness can be caused by condensation and the courts sweating</p> <p>7. Ensure there is adequate light to be able to see the ball</p> <p>8. Watch the ball and the player about to strike the ball so as to anticipate the ball's movement and avoid being hit by the ball. In particular, be aware that eye injuries can occur either if you turn round to face a player hitting the ball or if the ball takes an unexpected deflection off ledges or the buttress. If you are hit in the eye, you should stop playing immediately and have the damage assessed. Goggles <b>may</b> be worn as a precautionary measure to protect the eyes</p> <p>9. Avoid getting in the way of the player about to hit the ball to avoid getting hit, tripping and collisions</p> <p>10. Stop playing and ask for a 'let' if another player physically blocks your shot or if continuing with the shot might cause injury to yourself or others.</p> <p>11. Do not play whilst wearing or carrying sharp or hard objects e.g.jewellery that might cause injury in the event of a fall or collision</p> <p>12. Check if there are any nonstandard or unusual aspects to the court, in particular, the size of the 'step' and the run off area at the back of the court as these can cause a player to slip or collide</p> <p>13. Ensure that spectators do not encroach on this run off area at the back of the court or get in the way of players</p>

## Risk Assessment for John Nicholson Fitness Suite

### MANAGEMENT OF HEALTH AND SAFETY AT WORK REGULATIONS 1999 GENERAL RISK ASSESSMENT

<b>Brief outline of work/activity :</b>	<b>Use of the John Nicholson Fitness Suite</b>			
<b>Location</b>	<b>Ipswich School.</b>			
<b>Significant Hazards</b>	Trips Slips and Falls  Crush Injury from apparatus			
<b>Who might be exposed to Hazards</b>	It is not anticipated that there will be more than 4 – 20 people using the suite at any one time			
<b>Existing Control Measures</b>	<p>The following precautions will be taken:</p> <p>The most serious risk is from a crush injury. To minimise this risk all users will be trained in the use of the equipment in the staff fitness suite.</p> <p>Adequate first aid equipment is provided and maintained.</p> <p>The equipment is periodically inspected by the PE Staff at Ipswich School and Life Fitness.</p> <p>Whilst it is not possible to prevent someone getting into difficulty in the suite, it is recommended that users <b>do not</b> train alone.</p>			
Are risks adequately controlled: YES <input checked="" type="checkbox"/> / NO <input type="checkbox"/>				
<b>If NO, list additional controls and actions required :</b>	<b>Additional controls :</b>		<b>Action By:</b>	
Are risks adequately controlled : YES <input checked="" type="checkbox"/> / NO <input type="checkbox"/>

## Risk Assessment for ISSC Swimming Pool

### MANAGEMENT OF HEALTH AND SAFETY AT WORK REGULATIONS 1999 GENERAL RISK ASSESSMENT

<b>Brief outline of work/activity :</b>	Use of the Swimming Pool outside of Ipswich School hours			
<b>Location</b>	<b>Swimming Pool, Ipswich School.</b>			
<b>Significant Hazards</b>	Drowning, falling, tripping and slipping. Swimming in cloudy water			
<b>Who might be exposed to Hazards</b>	Use of the pool will be limited to no more than 20 swimmers at any one time			
<b>Existing Control Measures</b>	<p>The following precautions will be taken:                      The most serious risk is from drowning. To minimise this risk access to the swimming pool will only be permitted to those members of a controlled swimming club.                      Clear depth markers are displayed along the sides of the pool as a warning to swimmers and their children.                      Adequate rescue equipment is provided and maintained on the pool edge and an emergency telephone is provided in the entrance lobby.</p> <p>Whilst it is not possible to prevent someone getting into difficulty in the pool the rules cater for this eventuality by forbidding lone swimming by adults. (The second adult does not need to be in the pool)</p> <p>The clarity of the water will be checked each day by staff at Ipswich School                      No swimming is to take place if the water is cloudy.</p> <p>To minimise the risk from collisions, no running, diving or general misbehaviour is allowed and suitable warning notices have been displayed.</p>			
Are risks adequately controlled: YES <input checked="" type="checkbox"/> / NO <input type="checkbox"/>				
<b>If NO, list additional controls and actions required :</b>	<b>Additional controls :</b>			<b>Action By:</b>
Are risks adequately controlled : YES <input checked="" type="checkbox"/> / NO <input type="checkbox"/>
